

Calculating ASHA CEUs

One CEU is offered for each 10 contact hours of instruction included in a specified continuing education course. The number of contact hours of instruction and the appropriate CEUs offered are determined prior to conducting the learning experience and only after the purpose and intended learning outcomes, requirements for satisfactory completion, content and content level, format, instructional methodology, instructional staff, and time schedule have been established and reviewed by the CEB.

The 60-minute clock hour is used as the contact hour in all continuing education experiences. Only the number of complete instructional hours is considered in assigning CEUs. For example, 1.7 CEUs are assigned for a learning experience with a total of 17, 17.50, or 17.75 contact hours. Any fraction or portion of an instructional hour calculated for the total course is disregarded.
